How to set a password on your iPhone or iPad keyboard. How to set a password on your iPhone 4s

Instructions Press the power button on your phone until it turns off. After that, connect your phone to your PC. At the moment of connection, automatic installation of drivers, necessary for normal work of the phone, will be performed. If it doesn't happen, launch "Device Manager" and manually select the modem model. Launch PC-Modem program. Open the "Settings" menu and select the "Parameters" tab. In this section you can set the dialing mode, add an entry in the "Outgoing calls log", etc. Press the "Save" button at the bottom of the window. Click the "Options" button in the "Settings" menu. In the "Modem Name" list, select the type of connection you will connect to. This may be "Internet Connection", "Phone", or "Local Area Network". Click the "Change" button next to the name. Select the device you will connect to and click the "OK" button.
