## Filme Chocolate Johnny Depp Download Torrent 2021

i don't know how i feel about this one, but its okay. all i have to say is that the flashback and the time travel doesn't really add anything to the overall plot. it's not worth buying or renting. you can skip it. 6.5/10. for me, this film was very good. the story is well done, and the acting is okay. i find the main character to be quite likeable. it's a film that can be watch for many different reasons. i like the fact that the ending leaves many questions, but they can all be tied up. it's a well made film, but i can't rate it very high. however, i think it's definitely worth watching. 8/10. a classic. johnny depp is frighteningly creepy as edward hyde. jonny depp plays this role so wonderfully.the cast is worth the watch alone because it contains some of my favorite actors of all time, including edward norton, gabriel byrne and penelope cruz. a- this film is a great example of a good detective film. i would give the story 4/5. the supporting cast is good, but i would give the performances of johnny depp and kim basinger an a- and co-star penelope cruz a b+.the film is good for a light-hearted, family drama, but is too predictable. too many clues are obvious. if the film had more twists and turns, i could easily give it an a+ johnny depp, quite simply, is the greatest living actor. i know that may sound absurd considering that i haven't seen any of his films in ages, but he has just been that incredible for so long, it's no surprise. i haven't seen edward scissorhands for nearly a decade, and i'm still enthralled by the vision of that film, johnny depp is more than capable of delivering a mesmerizing piece of art, and with chocolat, he has done just that.this movie is entertaining for all ages, and it's got some fun moments, but it's not the deepest of thrillers. don't let that scare you off, it's still a wonderful little film.in fact, it's probably a perfect date movie. maybe not for your mother though, because it definitely has an undercurrent of sexuality, which some people may find offensive.
